

**Memorandum of Understanding on Academic Exchange  
Between  
College of Mechanical & Electrical Engineering, and Electrical Engineering &  
Computer Science, National Taipei University of Technology, Taiwan  
And  
Graduate School of Information, Production and Systems,  
Waseda University, Japan**

1. Objective:

College of Mechanical & Electrical Engineering, and Electrical Engineering & Computer Science, National Taipei University of Technology (hereafter referred to as "NTUT"), Taiwan and Graduate School of Information, Production and Systems, Waseda University, Japan (hereafter referred to as "IPS") shall conclude this memorandum of understanding on academic exchange aiming to promote student exchange programmes and other cooperation activities between the two institutes.

2. Name of Memorandum:

This memorandum of understanding shall be called 'Memorandum of Understanding on Academic Exchange Between College of Mechanical & Electrical Engineering, and Electrical Engineering & Computer Science, National Taipei University of Technology, Taiwan and Graduate School of Information, Production and Systems, Waseda University, Japan'.

3. Degree:

Should a student enter the master's programme or the doctoral programme of IPS and fulfil all the requirements set by IPS, he or she shall be awarded the master of engineering degree or doctor of engineering degree, respectively, from Waseda University.

4. Recommendation and Selection of Students:

Every year starting with the year 2014, NTUT may recommend, on their own responsibility, to IPS their excellent students, among the eligible students stipulated in Article 5, who meet all the conditions provided in Article 6. The recommended students shall be screened and selected by IPS and only the successful applicants shall be accepted by IPS. NTUT may recommend their students to IPS at any IPS entrance examinations for international students.

5. Students Eligible for Recommendation:

- (1) Undergraduate students of NTUT who wish to enter the master's programme of IPS after graduating from the undergraduate programme of NTUT.
- (2) Master's programme students of NTUT who wish to enter the doctoral programme of IPS after graduating from the master's programme of NTUT.
- (3) Master's programme students of NTUT who wish to obtain the master's degree from both NTUT and Waseda University (F course). In this case, the students will enter the master's programme of IPS after studying at the master's programme of NTUT for a year or longer. Should the students meet all the graduation requirements set by IPS after studying at IPS for one and a half years, they will be eligible to obtain the master's degree of Waseda University. If they conduct an outstanding research, there is a possibility that they will graduate from the master's programme of IPS in one year. Should the students also meet all the graduation requirements set by NTUT, it can award its master's degree to them.
- (4) Undergraduate students of NTUT who wish to enter the master's programme of IPS after studying for at least three and a half years at NTUT (G course). In this case, students will enter the master's programme of IPS after studying for at least three and a half years at the undergraduate programme of NTUT. Should the students meet all the graduation requirements set by IPS after completing the master's programme of IPS; they will be eligible to obtain the master's degree of Waseda University. NTUT may award them its bachelor's degree should they meet all the graduation requirements set by NTUT.
