

Ph.D. Qualifying Examination Requirement
International Graduation Program of EECS College
National Taipei University of Technology

1. Qualifying examination is held once a semester. Application must be filed within two weeks after the semester begins. The exams are scheduled in some week of May and December respectively.
2. The qualifying examination is conducted in written form. Two courses must be chosen from the graduate-level courses offered by the full-time faculty members of EECS college. The grade must be higher or equal to 70 out of 100 to pass the exam.
3. Qualifying examination requirement must be fulfilled within three years after entering Doctoral program, otherwise the student will be expelled. The exams can be taken twice more if fail.
